Bench Materials:

Recor™ Recycled Slats:

Recycled solid surface by-products
Recor™ uses solid surface by-products as filler in the acrylic based material. Our patented process produces a familiar material in warm colors with a renewable surface. This acrylic based material functions beautifully in both inside and outside use and the acrylics provide a cleanable, stain-resistance surface. Now you can specify Recor™ as your material of choice for benches, litter receptacles, chairs or tabletops. The rich warm color of Recor™ does not fade. It does not splinter or crack. Because Recor™ is made from a non-porous material in nature it means that it will not support mildew, or the growth of mold and bacteria.
